Live Hands Free

Description

The DAP has been uniquely designed to allow users to approach the device at any angle to easily open the door. The precision cut aluminum with an anodized finish allows this foot handle pull to last and perform in all weather conditions.

The DAP stays clean due to the hollow foot handle pull design. Personal Safety and employees' confidence when entering a facility are both achieved with this protective device.

DAP the door and Go!

DAP plus Kickplate
Case of 6
