Transparent Solutions To Keep Students, Teachers, and Administrators Safe

As school resumes, we care about the well-being of your students, teachers and administrative team. At **SAFE DSTNC** we provide safe spaces where social distancing is not possible. We understand the importance of barriers in preventing and mitigating the spread of air-borne particulates. Our products protect **Students and Teachers** while allowing the visual and auditory experience to remain seamless.

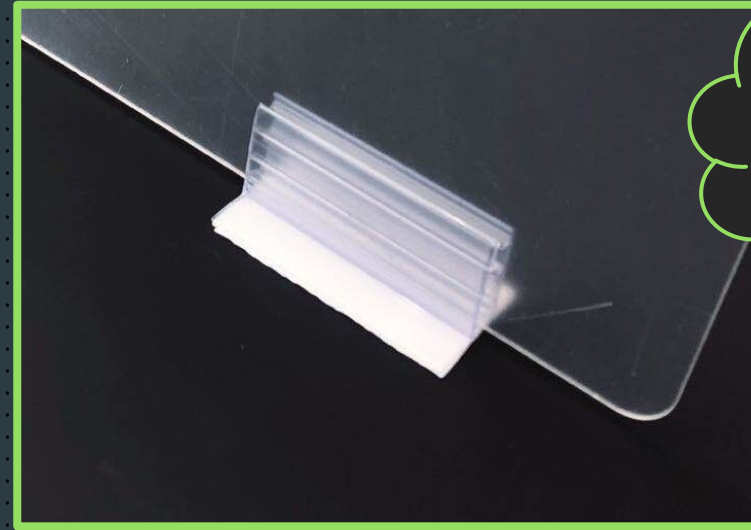

Our solutions are ideal for classrooms and collaborative workspaces; where communication is imperative to the learning process.
